As you know garbage that is not properly contained can and often does pose a public health and safety issue. Please be advised that if a container is overloaded at the time of your scheduled service, an additional charge will be applied to your monthly bill. This additional charge, in the amount of \$25.00 per cubic yard, will appear on your next monthly billing statement. If you find that you are regularly overloading your container, it may be time to review your account to determine if a larger container or more frequent service interval is appropriate.
